### Virtual Tips!

### Children must read at home every night!

- Login to your Google Classroom every day!
- Be on time and prepared to participate in Meets
- Check for missing assignments and make up any missing work

- \* What fact(s) did you enjoy learning about the most?
- \* Of the information you learned, which would you like to share with someone else?
- \* Would you like to read more books about this topic? Why?
- \* What else would you like to learn about this topic?
- \* What pictures or illustrations did you find interesting? Why?
- \* What kind of research do you think the author had to do to write this book?

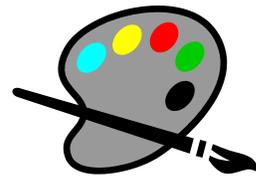

## Music

In the month of December we will be learning songs for the winter season. There will be winter time songs along with songs for various holidays that fall during this month. It will be a month of singing!

## Art

Students will gain knowledge of abstract and realism painting.  
Students will gain an appreciation of the culture the artists come from.  
Students will learn how to experiment with different painting techniques using different tools.  
Color theory from primary to secondary colors.  
American Art History

## Physical Education

Before the resolutions are written, gifts exchanged, and fond memories reminisced, we have one final push for 2020 in the Coram gymnasium. We continue to modify and adjust each unit and our fitness centers are up next. Just before we head out the doors, we will practice our eye-foot coordination and rhythm as we do a little dancing. As if 2020 couldn't end soon enough, we will end it on a high note here at Coram School in PE. Continue to check the PE Google Classrooms for new challenges to complete each week!

## Library

One of the most important skills taught this year in library is the ability to problem solve. In December, fourth grade students will be learning about computer science and the basics of computer programming. We will be celebrating Computer Science week by participating in the Hour of Code and students what programmers do.

Continue to read as the chilly weather approaches. Fun fact: Reading aloud to young children is not only one of the best activities to stimulate language and cognitive skills; it also builds motivation, curiosity, and memory.
